"GOOD MORNING"

ROCK PLANTS PERENNIALS

30

Shoreway Nursery

JOHN E. OUDSHOORN, Prop.

Glassboro, N. J.

PHONE: 480

Introduction and Condition of Sale

The prices in this Catalog cancel all previous prices.

Our plants as listed are all strong field grown, except for some which we are growing in pots owing to root conditions. These plants being a better success from pots than from the field.

We do not ship plants we would not like to receive ourselves.

Our quality plants are the lowest by comparison.

They are guaranteed to be true to name except those usually raised from seed of which we buy the best and which generally come true.

OUR TERMS ARE:

30 days net on accounts of approved credit.

2% discount in 10 days.

6% interest will be charged on all accounts past due.

Orders from unknown parties must be accompanied with cash or satisfactory references.

We do not charge for packing.

Less than 3 plants will be 10% of dozen rate each.

3 plants are shipped at the dozen rate.

25 plants are shipped at the 100 rate.

Orders to be sent via Parcel Post must be accompanied with sufficient money for postage, otherwise a C. O. D. will be made out for the deficiency, if no postage is sent, goods will be sent via Express.

Prices for more than 100 of one variety will be gladly quoted upon request.

LOCATION

Our Nursery is located on the West side of the Delsea Drive (N. J. Route 47), between Clayton and Glassboro.

Worthy Novelty Perennials

We continuously experiment with new varieties of perennials, and have selected the following as the most outstanding. Some of these are being offered for the first time at popular prices, while others are the most worthy of recent introductions. We strongly recommend that you make a planting of these special items. You will find them very valuable additions to your present assortment of perennials.

NEW INTRODUCTIONS FOR 1942 PYGMY PYRETHRUMS

We are introducing this spring for the first time a new strain of Pyrethrums which do not grow any higher than 6 inches and are so covered with blooms, especially the second year, that they are resembling large red and yellow or pink and yellow cushions.

They are a dwarf form of the well known Pyrethrum Roseum and have the same habit of growth and when not in bloom are hard to be distinguished from the parent plant, but when in bloom they sell on sight. Blooming time is late May to mid June.

Red Pygmy

..... \$3.00 \$20.00

CHRYSANTHEMUM

"GOOD MORNING"

(See illustration on Front Cover)

"Good Morning," the 1937 yellow root-sport of "Astrid," possesses all the finest qualities of that well known early hardy chrysanthemum.

well known early hardy chrysanthemum.

Rooted cuttings in May develop into strong, vigorous plants conspicuous among all other chrysanthemums for their beautiful dark green blight and disease-resistant follage.

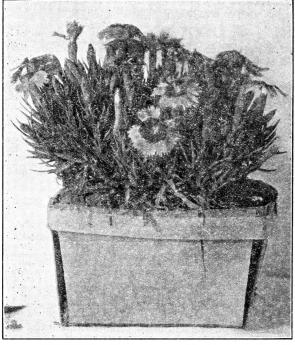

The plants with strong branches require no disbudding, and are very floriferous. Bronzy buds unfold by mid-September into a light cream, Flowers in good condition were picked in early November after frosts and heavy snow in October

November after frosts and heavy snow in October. Disbudded, "Good Morning" may be used for speciman flowers, which keep more than two weeks. The plants are excellent for landscape use, or may be potted, and can be had in bloom in the house until after Thanksgiving Day. Removed after heavy frost to the greenhouse, "Good Morning" may be forced into bloom for Mother's Day. In the open the plants require no winter protection, and are abundant propagators.

DIANTHUS

Doz. 100

*Plumarius Little Gem. A delightful new addition to the Dianthus family, of our own origination, being only 3 inches in height, and having deep rose pink flowers with maroon centers, which are 1½ inches in diameter, and bloom from May until killed by a heavy frost, it will

DIANTHUS PLUMARIUS LITTLE GEM (Photographed in one-quart berry box)

stand the dry weather very well and in the dry summer of 1939, there was not a day that there was not a flower in bloom, and the succeeding wet weather seemed just as well to its liking as long as it does not get its feet wet. The flowers, which come about three to a spike, are just protuding above the foliage. Excellent for edging and the rock garden.

1.50 10.00

ARTEMISIA

*Schmidtiana Nana. Lovely feather foliage in sun-glinting silver, dense and as though it were moss, gathered in low rounding mounds six inches high by sixteen across. A charming species.

2.50 15.00

GYPSOPHILA

†Flamingo—Double Pink Baby's Breath.
This is a worthy companion t othe well-known Bristol Fairy. It has the same habit of growth and flowering.
The first flowers, appearing in June and July, vary from light pink to white. If these are cut, the plants will continue producing flowers throughout the entire summer, bearing an exceptionally heavy crop in the month of September. At that time, due to the cooler nights, the flowers become a very good shade of pink. These are very neat in appearance and when used in floral pieces they really create a very high class effect.

STOKESIA

Cyanea White Queen. A splendid new white variety of cyanea, a good companion to the well known Blue Moon... 2.50 15.00

SPECIAL NOTICE TO OUR CUSTOMERS

Taxes and increased costs, owing to the war, are going to have a bearing on prices. We will try to maintain the prices listed in this list, but we reserve the right, to change any of the prices, as may be necessary.

Should a Federal Sales Tax go into effect, Remittance must be increased by the additional amount.

Other Perennials

| ACHILLEA | Doz. | 100 |
|---|--------|-------|
| †*Boule de Neige. (Ball of Snow). An improvement on the Pearl. Wonderful for cut flowers or garden. Blooms in June. A good filler, grows 12-15" high, double white flowers in umbels | 1.05 | 9.00 |
| *Clavenae. Silvery foliage, white flowers | . 1.25 | 9.00 |
| 8 inches, April-May | 1.50 | 10.00 |
| flowers, 2 ft., June-September *tomentosa. Neat cushions of bright green foliage and heads of yellow | | |
| *tomentosa sulphurea. A beautiful new form of the well-known Achillea. tomentosa, but with pale yellow flowers which are produced in a much greater quantity during May and June. 8 in | | |
| ACONITUM (Monkshood) | | |
| Fisheri. 2 ft. Dark blue. SeptOct AJUGA | 1.25 | 8.00 |
| *reptans. A blue flowered trailer for the rock gardens. 6 inches. April-May *reptans purpurea. Same as the above | 1.25 | 8.00 |
| only deep colored brown foliage | 1.25 | 8.00 |
| ALLIUM | | |
| *Flavum. Flower-bells of deep glossy yellow, buff-tawny in reverse, are carried in loosely spraying informal clusters. Exceedingly floriferous, over a long season. Good in rock garden, or for edgings or bedding. | 1.25 | 8.00 |
| *Pulchellum. More or less it is an Allium flavum major that has been dipped in raspberry jam. It's a highly visible, and highly attractive tone of raspberry purple. Vivid. | | 10.00 |
| Tanguticum (Lavender Globe Lily). The flowers are fluffy stars, packed closely, hundreds of them, into great globe clusters that top 2-ft. stems. The blossoms the a pure cool lavender, a clean, clear shade. A soundly hardy and enduring perennial, making big clumps that are fountains of showy bloom in late summer and early autumn, giving them magnificient effects. | | 15.00 |
| ALYSSUM | | |
| *saxatile compactum. Basket of Gold. One of the most popular of spring flow- ering plants. Masses of yellow flowers. | | |
| 9 inches. April-May | | 8.00 |
| *saxatile citrinum. A sulphur colored variety of the above. | 1.50 | 10.00 |

| ALYSSUM (continued) | Doz. | 100 |
|---|--------|-------|
| Italica Dropmore Var. Tall spikes of gentian blue flowers. 3 ft. June-July. | | |
| gentian blue flowers. 3 ft. June-July. | 1.25 | 8.00 |
| *myosotidiflora. Masses of bright blue, forget-me-not flowers. 1 ft. April-May. | 1.50 | 10.00 |
| ANEMONE | 1.00 | 10.00 |
| Japonica, (Japanese Windflower). These | | |
| beautiful flowers are among the most | | |
| important hardy plants. They begin | | |
| blooming in August and continue until cut down by hard frost. | | |
| Alba. Purest single white with yellow | | |
| center. | | |
| Queen Charlotte. Abundant semi-double flowers, broad and perfectly formed; | | |
| colored, La France pink; height, two to | | |
| three feet. | | |
| Rubra. Beautiful rosy-red with bright yellow stamens. | | |
| September Charm. Silvery rose. Very | | |
| early and free flowering. | | |
| Whirlwind. An excellent sort producing | 1 20 | 10.00 |
| beautiful double white flowers *Pulsatilla. Large, bluish-purple cup | 1.50 | 10.00 |
| shaped flowers. 1 ft. April-May | 1.25 | 8.00 |
| *alba. A white variety of the above. | | |
| Distinct and rare | 1.50 | 10.00 |
| ANTHEMIS | | , |
| *Moonlight. A much improved form with | | |
| good sized single yellow flowers during the entire summer. Succeeds in the | | |
| poorest soil and is an excellent cut | | |
| flower | 1.50 | 10.00 |
| AQUILEGIA (Columbine) chrysantha. Soft yellow flowers. 3 ft. | | |
| May-June | 1.25 | 8.00 |
| coerula. Blue and white flowers with | | |
| long spurs, 2 ft. May-June. | 1.25 | 8.00 |
| Crimson Star. This is an entirely new Aquilegia. It is by far the most strik- | | |
| ing crimson with white corolla. Because | | |
| of its bright color, we believe that our | | |
| customers will find this variety of great | | |
| value either in border plantings or for cut flower use. | 1 50 | 10.00 |
| Mrs. Scott Elliott's Strain. This is prob- | 1.00 | 10.00 |
| ably the best strain of long spurred | | |
| hybrids. Wide range of colors. 2-3 ft. | 105 | 0.00 |
| May - June. | 1.25 | 8.00 |
| *ARABIS (Rock Cress) *Alpina. One of the earliest Spring flow- | | |
| ering plants. Very suitable for the | | |
| rockery or border, with its masses of | | |
| pure white flowers. 1 ft. April-May | . 1.25 | 8.00 |
| *Alpina, fl. pl. A double form of the above. | | 10.00 |
| ARENARIA | 2.00 | 20.00 |
| *Montana. One of the best rock plants | | |
| for trailing over a ledge. Cascades of | | 0.00 |
| glistening white flowers in May | 1.25 | 8.00 |

| ARENARIA (continued) | Doz. | 100 |
|---|-------|-------|
| Bee's Ruby. Stout erect stems with large | | |
| heads of brilliant Ruby-red flowers, 15 | | |
| in., June-August. | | 15.00 |
| *Cephalotes Rubra. In the assortment of | | |
| dwarf and semi-dwarf varieties this by far is the most outstanding. The | | |
| flowers are of good size and the color | | |
| is a striking red. For border there is | | |
| nothing that will make such a bright | | |
| showing. At road side sale grounds, | | |
| these plant when in flower, will sell | | 0.00 |
| *maritima Laucheana. Compact tufts of | | 8.00 |
| grass-like foliage entirely covered in | | |
| May and June with globular heads of | | |
| pink flowers. 6 inches | 1.25 | 8.00 |
| ARTEMISIA | | |
| †Silver King. Silvery leaves on 3-foot | | |
| stems. Useful for cutting | | 8.00 |
| ASCLEPIAS | | |
| tuberosa. Clusters of bright orange red | | |
| flowers. 2-3 ft. July-Sept | | 8.00 |
| ASTER (Michaelmas Daisy) | | |
| *Alpinus. May. Blue. 10 inches | 1.25 | 8.00 |
| *Alpinus albus. White | 1.25 | 8.00 |
| *subcoeruleus. Violet-Purple. 1 ft. May- | | |
| June. | | 8.00 |
| †Amellus elegans. Undoubtedly the best of the Amellus varieties. Skyblue. | | |
| 2 ft. July-August | 1.25 | 8.00 |
| †Beechwood Challenger. Erect grower, of | 20 | 0.00 |
| medium height, producing brilliant | | |
| crimson-red flowers. We highly re- | | |
| commend this variety for florist cut- | | 4 |
| ting or landscape use | 2.50 | 15.00 |
| Farreri. A fantasy in purple and gold. Great shaggy flowers, three inches | | |
| across, gold centers with very many, | | |
| very long fringing petals of lavender | | |
| purple. Each flower is carried on its | | |
| own long stem, high above the foliage | | |
| mats. An unusual, and particularly | 0.00 | 10.00 |
| showy species. | 2.00 | 12.00 |
| †Frikarti (Wonder of Staffa). We consider this the best of the late summer and | | |
| early fall flowering varieties. It is at- | | |
| tractive in its neat upright free-branch- | | |
| ing habit of growth attaining a height | | |
| of about 30 inches. The large, well- | | |
| formed blooms are produced in great | | |
| profusion from the middle of August | | |
| until October. They are a lovely lav- | | |
| ender-blue color | 3.00 | 20.00 |
| flowers with a yellow eye. SeptOct | 1 25 | 8 00 |
| Lady Henry Maddocks. Clear pale pink | 1./30 | 0.00 |
| flowers on 12 in. compact plants. Sept | | |
| Oct | 1.25 | 8.00 |
| | | |

| ASTER (continued) | doz. | 100 |
|---|------|-------|
| Lilac Time. The well-rounded bushes completely covered by deep violet-blue | | |
| blooms give a startling effect. It is a most colorful and outstanding variety. | | |
| 15 inches. September. | 1.50 | 10.00 |
| Little Boy Blue. Blue flowers, 18 in Little Pink Lady. A pink form of the | 1.25 | 8.00 |
| above | 1.25 | 8.00 |
| duced in mid October on sturdy 9-inch plants. | 1.25 | 8.00 |
| †N. A. Harrington's Pink. All who see this lovely variety, are enchanted with its charm. A real pink that will be a | | |
| standard for a long time to come | 2.00 | 12.00 |
| Nancy. Bushy plants covered with pale flesh pink blooms. 12 in. September-October. | 1.05 | 0.00 |
| Ronald. Pleasing shade of bright lilac pink. 12 in. September. | | 8.00 |
| *Star of Wartburg. 12 inches. A showy spring-blooming Aster with large well-formed lilac-blue flowers with orange | 1.70 | 0.00 |
| center. | 1.50 | 10.00 |
| BAPTISIA | | |
| †australis. Sprays of dark indigo blue flowers. 3 ft. June-July | 1.25 | 8.00 |
| BETONICA | | |
| Grandifiora. Flowers of a desirable deep purple in brightly showy spikes. Vis- itors always stop before this when it is in bloom. | 1.50 | 10.00 |
| BOLTONIA | | |
| †latisquama. Pink. 4 ft. Sept | 1.25 | 8.00 |
| BUDLEIA | | |
| †Charming. Develops into a Beautiful bushy plant, growing to a height of 5 to 6 ft., and almost the same in spread. Making a very striking plant in any landscape, flowering from the middle of June until frost. The flowers are a clear Lavender pink, an entirely new color, never before seen in Budleias | 3.00 | 20.00 |
| CALLIRHOE | | |
| *Involucrata. Winecup, or Buffalo Rose. Not quite as long a bloomer as C. papaver, but nevertheless a magnificent trailer, loaded for fully two months, sometimes more, with bog cups of glowing wine crimson. Heat and drought but make it flower more freely. Trailing leafy stems that make from | | |
| the single central tuberous root, a rug | | |
| of green and crimson four feet across. 1 | .25 | 8.00 |

| CALLIRHOE (continued) | Doz. | 100 |
|---|------|-------|
| Papaver. In continuous bloom from May to November. Blossoms that are big and vividly color-filled of claret clim- | | |
| son, carried on slender gracefully up- curved stems, the plants perhaps 30" | | |
| across by half that height, all a brilliant blaze. Not a trailer | 2.00 | 12.00 |
| CAMPANULA | | |
| *carpatica. Branching stems bearing cup- shaped, blue flowers. 1½ inches or more in diameter. 1 ft. July-Aug | 1.25 | 8.00 |
| *carpatica alba. A white variety of the preceding. | 1.25 | 8.00 |
| garganica. Forms a dense, compact tuft and bears a profusion of starry, violet- blue flowers. 4 inches. June | 2 00 | 12.00 |
| †Medium (Canterbury Bell). Blue, white, | | 12.00 |
| pink; separate. June | | 8.00 |
| †Calycanthema (Cup & Saucer) Blue, Pink and White. Separate. June | 1.25 | 8.00 |
| †persicifolia. Slender stems studded with blue, cup shaped flowers. 2½ ft. | | |
| June-July. | | 8.00 |
| †Alba. A white form of the above | 1.25 | 8.00 |
| CARNATIONS—Hardy Border *†Mixed. Large double flowers, freely pro- | | |
| duced during June and July. 2 ft | 1.25 | 8.00 |
| CENTAUREA †Montana. Large, violet-blue flowers. | | |
| 2 ft. May-June. | 1.25 | 8.00 |
| CERASTIUM (Snow-in-Summer) | | |
| *Tomentosum. Silvery foliage which is covered with pure white flowers in May. | 1.25 | 8.00 |
| CHELONE | | |
| † Lyoni. Large, deep pink, tubular flowers. 2 ft. July-Sept | 1.25 | 8.00 |
| CHEIRANTHUS (Siberian Wallflower) *†Allioni. Dazzling orange flowers from | | |
| early Spring to late Fall. 1 ft. (Bien- | | |
| nial). | 1.25 | 8.00 |
| CHRYSANTHEMUM | | |
| †We have found it necessary to add these valuable plants to our collection, and | | |
| after some consideration we decided to | | |
| use only the best and the newest varie- | | |
| ties, and to keep on adding only those | | |
| which merit their places in our collec- | | |

tion.

| SHOREWAY NURSERY | 9 |

| Introduction of 1940. Pink white and | 30.00 |
| yellow. 2.00 Field grown. 3.00 | 12.00 18.00 |
| Aglow. Double bright orange flowers. | |
| Apricot. Apricot color, well formed, full | |
| flowers, measuring 2½" across, growing 2½ feet tall. Good cut flower sort. | |
| Astrid. Single pink. | |
| Barbara Cumming. Clear yellow in color, | |
| shading to orange-bronze toward the center. | |
| Durbin. Large salmon pink, suffused | |
| with crimson, semi-double flowers. | |
| daisy type. Very attractive colors. | |
| Blooms measure 21/2" across. | |
| Julia. Georgeous, large, delicate pink, full flower over 3" across. Petals are | |
| long, slightly straggly, has good lasting | |

long, slightly straggly, has good lasting cut flower qualities. Height 2½ feet. We believe this variety will be popular for its beauty as well as an early sort. Lovelight. Large pale pink duplex flowers. Mary Youdath. A most striking color of Vivid Rose with a deep gold center, a pleasing combination. Dwarf and bushy habit. Vigorous grower.

CHRYSANTHEMUMS (continued)

Doz. 100

Mrs. S. P. Rotan. Double brilliant golden yellow, shading to deep orange.

Pearl White. Very early white, flowers are small full, irregular, about 1" across, 12" high, bushy.

Pink Beauty. Beautiful pink.

Bouquet. Words cannot describe exquisite and outstanding in-Pink Bouquet. this troduction. The flowers are a dencate pink, slightly edged with cream. The petals are large and wide, firm and well formed. Single type about 2" across, slightly cup-shaped. The growing habit is such that when it is in bloom, it is a well arranged, perfect Pink Bouquet of solid flowers. A real tree forming habit, grows 20" tall, vigorous, sturdy strong stems. Matures September 20. We firmly believe this will prove very valuable and popular, also making an excellent pot plant as well as cut flowers.

Pygmy Gold. A distinct dwarf Korean pompon type, producing quantities of miniature blossoms slightly over 1" across. The color is a clear yellow, remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful early chrysanthemum yet introduced. Unusual also, because it retains its effectiveness right up until the season ends. Grouping in the rock garden or yard border or used for edging, it will prove the delight of the Autmun.

Rapture. Double deep orange flowers with a lively suffusion of bright carmine.

Ruby. Ruby pink.

Sally. Beautiful pink, full flowers, suffused with rose with a slight touch of cream at the center. A very pleasing combination. Bushy and vigorous grower. Fine for cut flowers.

Sequoia. Double blooms of a mellow amber.

Sunlight. Beautiful lemon yellow flowers in abundance.

The Chief. Semi-double, bright scarlet and gold.

Vesta. A plant of medium height and great vigor, literally covered with flowers over 2½" in diameter of a deep golden orange shade, almost a duplex.

| CHRYSANTHEMUMS (continued) | Doz. | 100 |
|---|------|-------|
| Youdath's Pride. A distinct variety and one of the most outstanding introductions. An early orange bronze, the earliest bronze yet on the market. The fiowers are perfect in form, color, shape and habit. Measuring 1¾" in diameter. The petals are compact and of straight and firm habit, yet it appears to be so tenderly graceful. With us it begins to bloom September 12 - 15. The height is 15", very bushy, fine foliage and shape. Suitable for edging, rock garden, and a gem for pot plant. | 1.50 | 10.00 |
| Field grown | | |
| *†maximum (Shasta Daisy). Splendid hardy perennials of easy culture and invaluable for cutting. Plant in good rich loam to bring out their beauty. | 105 | 0.00 |
| 2 ft. June-July | 1.25 | 8.00 |
| in length, in bloom for Memorial Day | 1.25 | 8.00 |
| COREOPSIS Grandifiora. Bright yellow flowers on long stems throughout the summer. 2 ft | 1.25 | 8.00 |
| †Verticiliata. Fern Coreopsis. Delightful fern-shredded foliage of bright green, but newer growth is roseate buff in delicately blended tonings. Blossoms of brightest pure yellow, no hint of orange. Long in bloom. Strictly a nonspreader. Recommended | 2.00 | 12.00 |
| DELPHINIUM | | |
| †Belladonna. Sky-blue flowers from June until frost. 3 ft | 1.25 | 8.00 |
| blue flowers | | 8.00 |
| †Blackmore & Langdon's English Hybrids. This is indeed a wonderful strain. It has a range of colors well divided in the palest of blue shades to the deepest indigo, with a strong run of the most delicate shades of rose; double and | ı | |
| single†grandiflorum (chinense). Gentian-blue | 1.25 | 8.00 |
| flowers; finely divided foliage. 2 ft. June-August. †grandiflorum album. A white variety | 1.25 | 8.00 |
| of the last | 1.25 | 8.00 |
| †Tatsiense. Airy, loosely bushy plants, bearing great blossoms that may be brilliant, far-vivid blue indigo, soft powder blue, or of purest silvery whiteness, with least touch of apple-green | | |

| DELPHINIUM (continued) | Doz. | 100 |
|--|------|-------|
| deep within. Long in bloom, might almost be called ever-blooming. We consider this the very best of all the lower growing hardy perennial Delphiniums. Long-lived. From Tatsien, in hills of China. | 2.00 | 12.00 |
| DIANTHUS *Allwoodii alpinus. Single and semi-double flowers in varying shades of pink. 4-5 inches. May-June | 1.25 | 8.00 |
| Beatrix. A fine hardy garden pink, which is becoming very popular. The flowers are a lovely salmon-pink in color, very fragrant and freely produced in May and June. | 1.50 | 10.00 |
| *Little Joe. Deep crimson flowers on 3" stems. Blue spiney foliage. Blooms heavily and continually from spring until killed by heavy frost | | 15.00 |
| of the well known Beatrice and Silver- mine. | | 15.00 |
| †plumarius fl. pl. A first rate mixture of | | 13.00 |
| fragrant, beautifully frilled flowers, varying in color from white to crimson. Single, semi-double and double flowers. May-June. | 1.25 | 8.00 |
| *Rose Cushion. Dense Cushion of ever- green bluish foliage, with rose colored flowers in May | | 10.00 |
| *Silver Mine. This variety is similar in habit of growth to Beatrix, except that it produces pure white flowers on 8 to 10" erect stems. The deep green foliage is very attractive during the entire growing season. It is a prolific bloomer. We consider it a very worthy addition to the set of Beatrix and Prince Bismark. Without question it is one of the most striking recent introductions. | | 15.00 |
| DIELYTRA | | |
| *eximea. Dainty, fcrn-like foliage and pendulous lyre shaped flowers of a pleasing shade of pink. 1 ft. May-September. | 1.25 | |
| spectabilis (Bleeding Heart). 3 to 5 eyes. 5 eyes up | | |
| DIGITALIS (Foxglove) | A.00 | 20.00 |
| †Gloxinaeflora. Pink, purple, white; sep- | | |
| arate. | 1.25 | 8.00 |
| †Isabellina. (New). Yellow, 3-4 ft | | 8.00 |
| †The Shirley. A new strain of large size Colors range from white and shell-pink | | |
| to deep rose. 5 ft. May-June | | 8.00 |

| DIGITALIS (continued) | Doz. | 100 |
|---|------|-------|
| †Orientalis. Blossoms of silvery down, on | | |
| cream, all laid about with an even net- | | |
| ting of chestnut brown. The flowers are | | |
| carried at near a right angle with the | | |
| stem, and each has a long extended | | |
| lower lobe, sort of a porch or balcony | | |
| to the blossom. An odd, and attractive | | |
| species, from borders of Kurdistan. An | 0.00 | 10.00 |
| enduring perennial | 2.00 | 12.00 |
| DORONICUM-Leopard-bane. | | |
| †Caucasicum. Large, bright yellow, daisy- | | 1 |
| like flowers. One of the most effective | | |
| early spring-flowering perennials. It is | | |
| a splendid flower for cutting as it carries well and stands a long time in | | |
| water. They succeed well anywhere | 2 00 | 12.00 |

| *Rose Queen. Pink flowers. 1 ft. All Helianthemus are | 1.50 | 10.00 |
| HELIOPSIS | | |
| †Golden Rays. Gives a summer long crop of semi-double golden yellow flowers. The flowers are extremely large with two rows of incised petals | 2.50 | 15.00 |
| †Incomparabilis. A greatly improved form which should do much to increase the popularity of this easily grown plant. During July and August, when cut-flower material is not plentiful, it produces large, almost double flowers | | |
| of rich golden color, on strong branching stems. | 2.50 | 15.00 |
| †Pitcheriana. Golden yellow flowers all summer: 3 ft. | 105 | 8.00 |
| †Scabra Zinniaeflora. Semi double orange | | |
| yellow flowers. 2½ ft. July-Aug | 1.25 | 8.00 |
| HEUCHERA—Coralbells | | |
| *†Sanguinea. Excellent rock or border plant growing about 12 to 18 in. high. Blooms profusely, having flowers of bright crimson in June to Sept. Ideal | | |
| for cutting. Likes a well drained, fairly rich soil in sun or part shade | 1.25 | 8.00 |
| *†Sanguinea alba. A white form of the | 1 50 | 10.00 |
| above. *†Perry's White. Pure white flowers which go well with the red and pink varieties, | 1.50 | 10.00 |
| flowering from June to September | 1.50 | 10.00 |
| *†Pluie de Feu. Graceful spikes of dazz- ling crimson flowers. 1½ ft. May- | | |
| June. *†Rosamunde. Coral-pink flowers. 2 ft. | | |
| HIBISCUS | | |
| Mallow Marvels. Pink, red, white, mixed. | 1.25 | 8.00 |
| HIERACEUM villosum. A good border plant with hairy, | | |
| silver grey leaves and yellow flowers, borne on 15 inch stems. May-June. | | |
| Unlike its name-sake, H. Aurantiacum, it is a very slow grower, and can be | , | |
| left several years in the same place without transplanting. | 1.25 | 8.00 |

| HOLLYHOCK | Doz. | 100 |
|--|------|-------|
| Double Crimson. Double Deep Rose. | | |
| Maroon. Newport Pink. | | |
| Double White. | | |
| Double Yellow. All Hollyhocks are | 1.25 | 8.00 |
| HOUSTONIA | | |
| *Coerulea. Innocence or Bluet. Exquisite little blue stars, myraids of them on slender airy stems above close foliage. Delightful always, never more so than when it reflects April sky, spread until colony has merged with colony to form great azure drifts. No Gentian-set slope of Switzerland or the Himalayas has | | |
| more endearing charm than our own Bluet-sheeted meadows and hillsides | 1.25 | 8.00 |
| HYPERICUM | | |
| *Fragile. A compact trailing rock plant | | |
| with yellow flowers. 5 in. May-June. | 1.25 | 8.00 |
| *Lanuginosum. Delightful in flower and in frosted follage effects. For a full three months there are blossoms of pure butter-yellow, fluffily tasselled, these carried in an enormous profusion, no Hypericum more floriferous. | | |
| Makes good colonies with time. From coast hills of Syria, but of full hardiness. | 1.50 | 10.00 |
| *Olympicum. A trailing rock plant hav- ing gray foliage and bearing very large, bright yellow flowers. 6 in. June- | | |
| July. | 1.25 | 8.00 |
| IBERIS—Candytuft | | |
| *Little Gem. 6 in. Very dwarf with a neat compact habit of growth. Pure | | |
| white flowers in May and June | 1.50 | 10.00 |
| flowers in Spring. | 1.25 | 8.00 |
| *Sempervirens. 1 ft. Rich dark ever- green foliage with masses of white | | |
| *Snowflake. A great variety 6 to 8 inches high, having exceptionally large, pure white flowers borne in great masses during May and June. | 1.50 | 10.00 |
| INCARVILLEA | 2.00 | 10.00 |
| Delavayi. A somewhat rare plant of exceptional merit. The flowers are tub- | | |
| ular in shape, like those of Bignonia grandiflora; they are dainty pink in | | |
| color, the throat being streaked with purple. They are borne in clusters of | | |
| six to twelve flowers on stout erect stems. July. Strong flowering roots | 1.50 | 10.00 |

| 11(0.212 2 0.000-0 | oz. | 100 |
|--|--------------|-------|
| *Glandulosa. 2 ft. little known plant of rare beauty. The flowers are golden yellow and fully five inches across, with | | |
| long, thread-like gray petals. June-July | .25 | 8.00 |
| IMPERIAL JAPANESE IRIS (Iris Kaempfe | ri) | |
| These noble Irises are the most beautiful | | |
| of the species and are becoming more popular each season. They begin blooming about the middle of June and continue for about five to six weeks. While they succeed in almost any soil | | |
| and under any condition, they delight | | |
| in a rich deep moist position. †Azure. Double Blue with yellow base. | | |
| †Betty Holmes. Large white, Orange Center. | | |
| †Catharine Parry. Blue overlaidrosey red high tufts in center. | | |
| †Eleanor Parry. Double Claret red with white and blue flush. | | |
| †Fascination. Double. Soft lavender. | | |
| Goldbound. White with yellow stripe in center. | | |
| †Mount Hood. Double rich royal purple with yellow center. | | |
| †Purple & Gold. Double, purple and gold streaked. | | |
| †Pyramid. Double, dark violet with bright yellow blotch. †Red Ridinghood. Single red. | | |
| All Japanese Iris are 1 | l. 50 | 10.00 |
| †Japanese Iris Mixed. Splendid mixture of the above | 1.25 | 8.00 |
| VARIOUS IRISES | | |
| *Cristata. 4 in. dwarf, fairy-like plant with soft blue, orange-striped flowers. | | |
| Easily grown in a rather moist, par- | | |
| tially shaded position. May 1 †Dichotoma. August or Vesper Iris. | 1.50 | 10.00 |
| Though quite out of resemblance to all | | |
| other Irises, it is none the less desir- | | |
| able. All through August the plants are, each afternoon, great bouquets of | | |
| bloom. The blossoms are carried in tall | | |
| sprays, slenderly branching and re- branching. Coloring is highly variable, | | |
| usually a cool translucent lavender | | |
| with mahogany markings that may be buff-lemon, orange, copper, brown or | | |
| tyrian 1 | 1.50 | 10.00 |
| *Pumila cyanea. 9 in. Violet-purple. May | 1.25 | 8.00 |

| VARIOUS IRISES (continued) | Doz. | 100 |
|---|------------------|-------|
| *pumila the Bride. A white form 2 to 3 ft. A variety distinguished by its tall, grass-like foliage and numerous violet-colored | 1.25 | 8.00 |
| flowers that are borne on slender stems. May and June | 1.25 | 8.00 |
| †Sibirica, Snow Queen. A variety of great merit. Flowers snow-white | 1.25 | 8.00 |
| LAVANDULA-Lavender | | |
| *Vera. A delightful, old-fashioned perennial having fragrant blue flowers in July and August. Likes a rather dry, medium soil and a sunny position. A compact bushy plant with lovely greygreen fragrant leaves. Height, 13 in. Suitable for border or rock | 1.25 | 8.00 |
| LATHYRUS (Perennial Sweet Pea) Latifelius Reseus. Pink | 1.25 | 8.00 |
| LEPACHYS | | |
| †Maroon and Gold. An extraordinary plant, decidedly attractive, and interesting also because of its diversion from commonly accepted lines of form and coloring. The flower-heads are little silky columns, set successively with tiny blossoms, and guarded at the base by wide petal-rays of richest maroon, gold-edged. The blossoms are multitude, carried on long, slender stems all through late spring and early summer. 3 ft. | | 10.00 |
| LIATRIS (Blazing Star) | | |
| telegans. An informally graceful, highly distinct, and delightfully pretty species Purest lavender. Many flower-filled stems, each individual floret large and starry, with long curved stamens | i i | 12.00 |
| †Pycnostachya. Long straight stalks 4 ft high with spikes 1 to 3 ft. long of rosy-purple flowers. The Liatris, unlike other flowers, commences to bloom at the top of spike, and blooms downward. Good for cutting. July-August. | - r o d | 8.00 |
| †Pycnostachya Gigantica. This latest | | |
| form of Liatris Pycnostachya is the best yet of all Liatris known. Its flower spikes reach to a height of 7 to 8 feet, and when in full bloom shows 30 to 36 inches of stem in bloom at one time. Excellent for | | |
| border and cutting. August - September. | 2.50 | 15.00 |

| LIATRIS (continued) | Doz. | 100 |
|---|------|-------|
| †Scariosa Superba. Greatly improved type very showy. Large, well-spaced tassel- blossoms of rosy purple on long spikes. The best and most desired Liatris in the cutflower market. 5 ft. Sept | | 8,00 |
| †September Glory. This late flowering type was selected from among a large number of fine seedlings because of its outstanding beauty. It is the showiest form of all the late varieties. The purple flowers are produced in extra long spikes during late August and | 1.23 | 6.00 |
| September. A first-class acquisition for the border and for cutting | 2 00 | 12.00 |
| †Spicata. Reddish purple. June-July | 1.25 | 8.00 |
| LINUM—Flax | | |
| Flavum. An attractive and profusely blooming perennial suitable for border or rock garden. Grows 1 foot high and has lemon yellow flowers from June to August. Grows in sandy or ordinary light, well drained soil and prefers | | |
| sun,* *Flavum manum compactum. A dwarf | 1.25 | 8.00 |
| form of the above | 1.50 | 10.00 |
| perenne. A beautiful border plant produc- ing a profusion of pale blue flowers on upright stems 2 ft. high. A new crop of blooms every day. A very graceful and | | |
| desirable plant | | 8.00 |
| | 1.25 | 8.00 |
| Cardinals (Cardinal Flower). One of the most attractive of border plants. Also ideal for waterside. It requires a moist position in sun or part shade, to do well. Has rich, fiery cardinal flowers. Often producing 4 to 6 spikes, 24 to 30 inches high. | 1.25 | 8.00 |
| LYTHRUM (Loosestrife) | | |
| Roseum Superbum | 1.25 | 8.00 |
| MERTENSIA—Blue Bells | | |
| Virginica. An interesting native plant. 1½ ft. Pinkish buds opening to lovely clear blue flowers. May-June | 1 05 | 0.00 |
| | 1.25 | 8.00 |
| MYOSOTIS—Forget-Me-Not Palustris semperflorens. Noted for its magnificent blue-colored flowers. 9 in. Light blue flowers during June | 1.25 | 8.00 |
| NEPETA—Catmint | | 2.00 |
| *Mussini. A plant especially good for the rock garden. Of dwarf, compact nature, producing masses of blooms of lavender | | |

| NEPETA—Catmint (continued) | Doz. | 100 |
|---|---------------------------------|----------------------------------|
| color all spring and intermittently during the summer. One of the most popular of rock plants or edging plants. Does well in ordinary soil that is well drained. Prefers sunny position. Height 1 foot. | 1.25 | 8.00 |
| OENOTHERA—Evening Primrose | | |
| *Missouriensis. A low growing plant used chiefly for the rock garden and border. Blooms abundantly from June until August. Require a well drained, medium sandy soil and a sunny position. Has beautiful large yellow flowers. Height, 6 inches. | | 8.00 |
| OXALIS | | |
| There is an elfin daintiness about the exquisitely formed flowers of Oxalis, and an unrestricted prodigality in their blooming that gives them an appeal over many other flowers. They bloom for months. Very valued for edgings and for the Rock Garden. Handle all Oxalis like Gladiolus digging and storing them in late Fall. | | |
| Lasiandra or Floribunda. Rather large | | |
| blooms of a pleasing deep rose, so rich that it approaches crimson. In bloom from late Spring to late Fall. 18 in Tetraphylia. Clustered flowers of old | .45 | 2.50 |
| rose above brown-banded four leaf clover foliage. 12 in. | | 2.50 |
| PAPAVER ORIENTALE—Oriental Poppy | | |
| Orientalis. The plant that gives that gorgeous display of large cup-shaped bright orange scarlet flowers in May and June. They do well in any well drained soil in sunny position. | , 1 1.25 | 8.00 |
| Beauty of Livermere. (Deep Cherry Red). | 1 50 | 10.00 |
| May Sadler. (Salmon Pink). Mrs. Perry. (Apricot Pink). Olympia. (Double Orange). Perry's White. (White). Wurtembergia. (Rose Red). | 1.50 1.50 1.50 1.50 | 10.00 10.00 10.00 10.00 |
| Gold of Ophir. A Poppy of medium height, about 24 to 28 inches, coming to perfection when 2 year old or more The flowers are golden orange which develop into the nearest yellow of any Oriental Poppy. This tone of golder orange becomes more pronounced at the plant grows older. A unique Oriental Poppy. | n S n y n s e | 15.0 |
| Henry Cayeaux. Early, deep old rose | е | |
| shading to burgundy. Best grown in partial shade. | ı | 15.0 |

| PATRINIA | Doz. | 100 |
|--|------|--------|
| †Scabiosaefolia. Golden Valerian. A highly meritorious hardy perennial for the border. High-held sprays of little golden yellow "Valerian" flowers. It cuts and lasts well. | 2.00 | 12.00 |
| PENSTEMON | , | 2,0100 |
| †Garnet. We believe this new Penstemon is the finest of them all. It is a large flowering type, a prolific bloomer from June until frost. The large, rich, garnet colored flowers are gracefully placed on stems 14 to 18 inches in length, often 12 to 15 flowers appearing on one plant. | | 10.00 |
| Cobaea. Blossoms of great size, soft lav- | 1.50 | 10.00 |
| ender with purple markings. Sparkling foliage. Spectacular. | 1 50 | 10.00 |
| Grandiflorus. Called King of Penstemons. Immense flower-trumpets, pure blue to orchid lavender, in towering spires of serried clusters. Blue-crispy leaves in perfoliate effect. Sure, easy, showy. Cuts well. | | |
| PEROWSKIA | | |
| *Atriplicifolia. Silver is here dominant, a silver that at time may be almost a snowy downiness, or again may hint of olive shadings, but an enveloping felted silveriness always. The flowers, and they show in midget multitudes, would be a bright blue-lavender were it not for a silvery haziness. A very lovely species. Afghanistan | | 15.00 |
| PHLOX | | |
| No other plant will make as bright a show in mid-summer. The improved varieties offered today embrace a wide range of colors to please any taste. They make a profitable item because they are hardy, reasonable in price, easy to handle and can be moved at any time. | | |
| Antonin Mercier. Lilac, white eye | 1.25 | 8.00 |
| B. Comte. Rich wine red. Blue Boy. Blue Phlox are hard to obtain. As a rulue, in the drier climates they show their color better in semi-shade. This is the bluest Phlox we have had. | | 8.00 |

| †Pure White. Has very large individual blooms combining into massive flower | | |
| trusses | 1.25 | 8.00 |
| †Scarlet Beauty. Highly valued for its rich crop scarlet blooms | | 8.00 |
| TALINIUM | | |
| *Calycinum (Cherry Sunbright). A hardy perennial succulent, with root tubers, which when in bloom are a compendium of delight. Try it in any hot dry place, full sun always, for an all-summer display of color brilliance. The blossoms, of luminous cherry-rose, are in airy sprays on stems so fine as to be near-invisible. Attractive foliage, succulent and brittle. | 1.25 | 8.00 |
| TEUCRIUM | | |
| *Chamaedrys. Shining green leaves and rosy flowers. 9 inches. June | 1.25 | 8.00 |
| TRADESCANTIA | | |
| Everblooming perennials of great beauty and easiest possible culture, | | |
| fully winter-hardy, tolerant alike of wet soil and dry, of sun out of not- too-heavy shade. They are spendthrifts | | |
| of bloom, blossoms that last but a day, but produce prodigally day after day, even month after month | | |
| Tradescantia - Iris Prichard. White, soft azure satin. | 2.00 | 12.00 |
| James C. Weguelin. New, beautiful variety, free-flowering, with porcelain-blue flowers from June until September. | | ` |
| A worth-while plant which does well anywhere. Foliage decorative | 2.00 | 12.00 |
| THERMOPSIS | | |
| †Caroliniana. Suitable for the sunny border. A lovely lupine-like plant with rich green foliage, growing about 2 ft. | | |
| Flowers are produced on spikes 6 to 12 inches long, which appear like a yellow lupine. They grow well in any well | | |
| drained soil. | 1.25 | 8.00 |
| THYMUS | | |
| *Lanuginosus. Plants form a solid mat | | |
| of wooly leaves covered in June - July with pink flowers. | 1.25 | 8.00 |
| TRITOMA—Red Hot Poker | | |
| †Pfitzeri. A fine plant for the border and cutting. Flowers are of a rich scarlet color, borne on tall spikes, blooming in | | |
| late summer to October | 1.25 | 8.00 |
| TROLLIUS | | |
| †Europaeus superbus. 2 feet. Glorified large globe-shaped Buttercups of waxy lemon yellow color. | 2.00 | 12.00 |

| TROLLIUS (continued) | Doz. | 100 |
|---|------|-------|
| †Europaeus, Orange Globe. Desirable free-flowering plants, producing their giant orange-yellow, buttercup-like blossoms on stems 1 to 2 feet high from May until August; succeeds admirably in the border in a half-shady position. †Ledebouri, Golden Queen. Recent introduction of special merit. Acclaimed in both Europe and America as a choice item for the border with its extra-large | 2.00 | 12.00 |
| golden orange flowers. Very highly re- commended | 2.50 | 15.00 |
| *Saxifraga fl. pl. A pretty dwarf plant with grass-like foliage and double rose colored flowers which are produced freely all summer. Very useful for edging and the rock garden | 1.25 | 8.00 |
| VALERIANA | 1.23 | 0.00 |
| †officinalis. A strong growing and free flowering plant bearing heads of pale pink flowers. 3-4 ft. June-July | 1.25 | 8.00 |
| VERONICA | | |
| †Blue Spires. Far superior to the well known Spicata. Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy, upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worth- | | |
| while border plant | 1.50 | 10.00 |
| *Incana. A gem for the rockery or low border, with its unusual contrast be- tween foliage and flowers. Has narrow silver leaves in neat tufts, from which arise dainty spikes of violet-blue flowers. | | |
| Very good for edging garden paths *incana rosea. Silvery foliage and showy Pink flowers during July and August. | | |
| 1 ftLongifolia Subsessilis. 2 ft. Spikes of | 1.50 | 10.00 |
| exquisite blue flowers. July-Sept *Royal Blue. 10 inches. Gentian blue | 1.25 | |
| flowers. *Rupestris. 4 inches. Dark green foliage, small spikes of blue flowers. May- | 1.25 | 8.00 |
| June. *Spicata alba nana. A most pleasing form of Veronica spicata alba, growing only 8" high. Its pure white flowers are nicely offset by its dark green foliage. Good for edging and the rock garden. June - July. | | |
| *trehane. One of the choicest Veronicas. The foliage is golden yellow, very striking. Blue flowers. 6 inches. May-June | | 8.00 |
| | | |

| VINCA (Periwinkle) | Doz. | 100 |
